

Internship as a Spanish editor

(For Spanish native speakers)

Internships at Textbroker

Become a part of our editor team as an expert of the Spanish language! Writing an article not only requires creativity, but also a solid command of the Spanish language, including excellent grammar and orthography level, and often, very good research skills. Not only do our Spanish Textbroker authors compose articles to satisfy our clients, they also receive a lingual rating of their work. In addition to continuous quality assessment, we provide our freelance authors with motivating tips so that they can improve their writing skills even further. This innovative concept allows us to take care of thousands of authors from our head office in Mainz, Germany.

Your tasks include:

- Read and edit articles written by our freelance Spanish authors
- Rate the article quality based on orthography, grammar, expression, structure, content and additional guidelines dictated by our quality assessment process
- Provide Spanish authors with written and helpful feedback regarding the text quality and possible areas to improve
- Search for authors in our author-pool, recommending them for specific projects and topics
- Answer author mails in Spanish

This is what we are looking for:

- You thoroughly enjoy working with texts
- You are a Spanish native speaker
- You are highly skilled in recognizing and correcting orthographic, grammar and expression mistakes
- You are comfortable with Word or other word processing software
- You enjoy working in a young and international team

Work hours/week: approx. 20

Contact: Sara Guinot

Please send your application to: contacto@textbroker.es

We look forward to hearing from you!
